INVESTMENT STRATEGY

Overview: The aim of the model is to increase in value, over a minimum of 5 years, by investing in a range of asset classes and global markets. The model will be actively managed, on a high risk strategy. It will aim to maintain an internal risk rating classification of 8.

Objective: The aim of the model is to increase in value, over a minimum of 5 years, by investing in a range of asset classes and global markets. This will be achieved through a combination of capital growth, which is profit on investments held, and income, which is money paid out of investments such as dividends from shares and interest from bonds.

Policy: The model will be actively managed, on a high risk strategy. It will aim to maintain an internal risk rating classification of 8. The risk rating range is from 1 (lowest risk) to 10 (highest risk). This range is utilised across the whole of our investment proposition. The model will invest in a number of different asset classes across global markets, including shares in companies, bonds, property and commodities.

FACTSHEET
February 2024

ABOUT TAVISTOCK ASSET MANAGEMENT

Tavistock Asset Management (TAM) is authorised and regulated by the Financial Conduct Authority to provide Discretionary Fund Management (FRN: 955719). Tavistock Asset Management Limited is a wholly owned subsidiary of Tavistock Investments Plc. TAM manage over £1bn of assets on behalf of all clients, aiming to provide private clients with access to institutional quality portfolio management at a retail price. TAM's model portfolios provide individual investors with the benefit of collective buying power to ensure that the charges they incur for model portfolio management, platform fees and dealing are amongst the lowest in the industry. Currently, Tavistock has over 175 financial advisers helping 50,000+ private clients look after more than £3.5bn of investments.

ABACUS DFM MODEL PORTFOLIOS

The Abacus DFM Model Portfolios are a series of risk progressive "Model Portfolios" designed to cater for the varying risk appetite of different investors. Each Abacus DFM Model Portfolio provides investors with multi-asset global coverage with wide diversification across equity, bond, commodity and property markets. The portfolios are comprised of a blend of regulated collective investment schemes and cash.

INVESTMENT PHILOSOPHY

The fund management industry has experienced significant change in the last quarter of a century. Product innovation has enabled investors to benefit from wider exposure to global financial markets with far greater efficiency and at a lower cost. Index-tracking investments such as Exchange Traded Funds (ETF) and Index-Tracking Funds have grown increasingly important and may therefore form a part of the portfolio construction.

PEER GROUP

Although the PROFILE is not benchmarked against the IA sector one may wish to compare the performance of Abacus High (8) – DFM to the IA Flexible Investment Sector for peer group analysis.

MODEL PORTFOLIO

A "Model Portfolio" is a well-balanced combination of investments covering a range of asset classes and global markets that is structured to target a specific level of risk.

INVESTMENT TEAM

The Tavistock Asset Management Investment Committee carries direct responsibility for all discretionary investments at the firm. The principal focus of the committee is to monitor the performance of each investment solution within the Centralised Investment Proposition (CIP) against its stated investment objectives, target market and long-term return objective versus its peer group.

MANAGER COMMENTARY

Strong US economic data and earnings propelled the S&P 500 to an all-time high, up 5.34% on the month. Japan maintained its strong momentum, with the Nikkei 225 up 7.99%, as Japanese equities were boosted from a weakening yen. Emerging markets performed well, with the MSCI Emerging Markets index up 4.78%, supported by a rebound in Chinese stocks. Following supportive government intervention, the Shanghai Shenzhen 300 index rose 9.35%. UK equities were notable underperformers, with the FTSE 100 up just 0.45% on the month, as inflation remained sticky.

In fixed income, yields rose as market participants continued to unwind aggressive rate cut bets made at the tail end of 2023 following resilient economic data and higher-than-expected inflation data. The 10-year US Treasury Yield rose 34bps to 4.25% and the 10-year UK Gilt yield rose 33bps to 4.12%. The Bloomberg Global Aggregate Index was down -1.26%, and Bloomberg Global High Yield Index rose 0.79%.

Commodities struggled, with the Bloomberg Commodity index down -1.47% over the month. Gas prices continued to slide following muted global demand due to warm weather patterns. On-going political tensions in the Middle East and continued Opec+ supply cuts supported crude oil prices, with WTI up 3.18%. Precious metals had a mixed month, gold prices were up 0.23%, whilst silver fell 1.23%.
